

Contact Lens Examination Policies and Fees

Our Guarantee

Both the health of your eyes and your satisfaction are important to us. That is why we guarantee our contact lens services as well as all contact lens products purchased from our office. If we are unable to fit you with contacts that meet your needs we will apply your contact lens fitting/evaluation to the purchase of glasses in our optical department.

When you choose to purchase your contact lenses from us, you not only receive competitive pricing and the convenience of free shipping to your home on annual supplies, but you also receive our contact lens product guarantee. If you are not satisfied with the contacts purchased from our office then you may return one opened box of contact lenses per eye, and all factory sealed contact lens boxes within 30 days for exchange or credit. In addition, if your prescription changes within one year, we will exchange for the new prescription, any unopened boxes of contact lenses purchased from our office, because we want you seeing your best.

Contact Lens Evaluation and Exam

Contact lenses are medical devices, regulated by the FDA. This means that the doctor has to evaluate the health of your eyes and the fit of your contacts every year in order to determine the optimum prescription for your eyes.

Contact lens examinations are required on a yearly basis.

INITIALS _____

Contact Lens Fitting and Exam Fees

ALL contact lens patients will be charged a contact lens fitting and evaluation fee. The fee varies based upon the type of contact lens, doctor/staff time involved, and expertise necessary.

INITIALS _____

Insurance companies require that we bill contact lens fitting/evaluation charges separately from your comprehensive eye examinations. In most cases, insurance companies consider contact lenses “not necessary” and they will not cover these charges. We have taken this into consideration and now offer a 15% savings on services when payment is made at the time of your contact lens diagnostic evaluation.

Contact Lens Fit and Evaluation

discounted fee

Previous CL wearer with no change in fit or lens type; spherical lenses, toric lenses, soft bifocal, monovision, new CL wearer.	\$70.00	\$59.50
---	---------	----------------

Medically necessary contact lens fits (Post surgical lens, any keratoconus lens such as the Ultrahealth lens, Kerasoft, or any scleral or semi-scleral custom lens)	\$618.75	\$495
---	----------	--------------

The services received for this fee include the fitting/refitting and evaluation for contact lenses, tear film/corneal health analysis, all contact lens follow-up visits with the doctor for 60 days. If you experience difficulty with your contacts beyond the 60 days, an office visit fee may be charged.
